

MOFFETT M2

THE SPECIALIST IN URBAN DISTRIBUTION

Truck-mounted forklifts are supporting businesses throughout all industries to make more deliveries in less time.

MOFFETT M2 is a highly agile machine with a low unladen weight, built for industrial and commercial applications, where machine size, weight and maneuverability are crucial.

Designed for applications requiring a lift capacity of up to 1,700 kg, the M2 transfers loads safely. With an exceptionally slim chassis, MOFFETT M2 features all the strength, performance and driver comfort of the larger MOFFETT models.

Key benefits

- Faster deliveries result in improved operating efficiency and allow you to deliver more goods in less time
- No more waiting on offloading equipment/personnel on site
- Simple operation within confined areas, including one side offloading
- Pick and choose your load order as you can access and offload from any location of the vehicle
- Stage V compliant

Always compliant with MOFFETT

All MOFFETT truck mounted forklifts are Stage V compliant. With MOFFETT your operation is secure today and tomorrow.

The M2 is the dedicated model for lift capacities of 1,500 kg and 1,700 kg. It is designed for a wide range of commercial and industrial applications. The extensive standard features of the MOFFETT M2 provide maximum operating safety and efficiency when handling loads in busy urban traffic conditions.

Standard features include:

- Flashing beacon and work lights
- Reverse beepers, road lights and interlocking seat belt
- ROPS/FOPS driver compartment (Rollover/Falling Object Protective Structure)
- Easy access to servicable parts

Options and attachments

Whatever the applications, the MOFFETT M2 is available with an extensive range of options and attachments:

Options

- Different tyre options
- Choice of forks
- Telescopic wheelarm
- Load backrest
- Engine heater

Attachments

- Telescopic forks
- Fork positioner
- Integrated sidseshift

MOFFETT M2 application areas

The M2 is the specialist for efficient load handling in busy urban traffic and confined operating conditions:
