KAB//Seating

This is a compact two-piece vinyl seat pan designed for forklifts, telehandlers, small tractors, construction and earthmoving equipment.

Designed for use as a static seat or for use with mounted suspension, and vibration absorption to help reduce fatigue, this seat will suit your application.

With Suspension

- Fore and aft adjustment 160mm
- 70mm height adjustment
- Driver weight adjustment to 120kg
- Adjustable damper to reduce vibration.
- Suspension cover (shown).

Options

- 2-point safety belt
- Armrests
- Swivel

Note: Seat does not come with suspension, seat belt and arm rests pictured.
