

**TRT.** MADE POSSIBLE

# STRATOS 3000 LTSS

## Fitting kits to suit light trucks and buses, including Mitsubishi, Isuzu, and Hino.

Light truck suspension seats (LTSS) are designed to reduce vibration transmission to the driver by up to 60-70%. With their low profile design, these light truck seats are an ideal replacement for your original static seat.

### Optional left hand armrest.

- Adjustable LTSS suspension.
- Low profile design.
- Reduces fatigue over long trips.
- Relief for existing back injuries.
- Suits Japanese Trucks
